

Wasn't Jesus amazing?! He was so tired and so, so hungry but he was able to bat away every temptation that the devil threw at Him and stay true to the plan God had for him.

Craft and Game:

Can you make a bat to 'bat away' the temptations that pull you away from behaving in the right way? You could use paper plates and card, or lolly sticks to make your bat, or a rolled-up magazine or a fancy design on an old cardboard box. As you play with your bat (batting away soft balls, rolled up pieces of paper or balloons) remember that Jesus

didn't let anything the devil threw at Him distract him from God.

Once Jesus resisted temptation, the angels tended to him and he was looked after very well. God rewards us too, when we work hard to be like Him, put Him first and are good to others.

Challenge: Can you learn a bible verse to help you get rid of doubts and temptations in your life? How about you work hard to remember the verse for a whole week and if you can you deserve a reward! You can agree with your grown ups to get a small reward (Jesus got bread to eat and a chance to leave the desert but perhaps you could negotiate for a nice hot chocolate or your choice of film for movie

Try this verse or one that's special to you

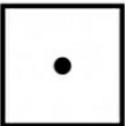

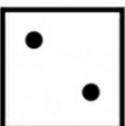

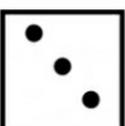

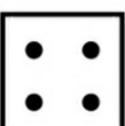

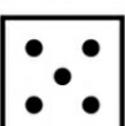

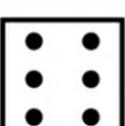

night etc). If you were brave enough to video yourself saying your verse we would

love to see it on Church Family News!

Jesus was strong. He didn't give in to temptation, even though he wanted to. He was willing to go without bread, rather than turn stones into bread just because the devil told him to.

Game:

Today's game needs a dice and some sweets or something that you find a tempting treat to eat (if you've not got a dice just put 6 pieces of paper face down with the numbers 1,2,3,4,5,6 then you can randomly pick out a number). Use these dice instructions and roll 10 times. Follow the instructions for each roll.

	Take a treat to keep in front of you
	Put a treat back (if you have any in front of you)
	Take a treat to put in a pile and give to someone else (don't sneak it into your pile!)
	Take 2 treats to keep in front of you
	Take a treat and eat it now OR put 2 in front of you to save for later
	Put 2 treats back (if you have any)

Remember ...
Even though it's tempting, don't eat anything until the very end of the game!
RESIST TEMPTATION
